

## RackMore VESA Adapters and Mounting Plates

### Adapters

#### VAP-75/100

Adapter plate mounts to 75mm VESA mounting hole pattern and provides #8-32 mounting studs in 100mm VESA hole pattern. Used to mount 75mm VESA mount products to 100mm VESA mount pattern products.

#### VAP-200/100

Adapter plate mounts to 200mm x 100mm VESA mounting hole pattern and provides #8-32 mounting studs in 100mm VESA hole pattern. Used to mount 200mm x 100mm VESA mount products to 100mm VESA mount pattern products.

### Mounting Plates for RMVM-200 Series Monitor Mounting System

#### VMP-75/100

Mounting plate mounts 75mm or 100mm VESA mounting hole pattern products to the RMVM-200 series rack mounted bracket. Provides both mounting hole patterns and attaches directly to monitor. The rear of the plate attaches to the RMVM-200 series mounting bar providing a stable rack mounting platform and allows for horizontal monitor position adjustment.

#### VMP-200

Mounting plate mounts 200mm x 100mm VESA mounting hole pattern products to the RMVM-200 series rack mounted bracket. Provides 200mm x 100mm mounting hole pattern and attaches directly to monitor. The rear of the plate attaches to the RMVM-200 series mounting bar providing a stable rack mounting platform and allows for horizontal monitor position adjustment.

#### VMP-075L

Mounting plate mounts 75mm VESA mounting hole pattern products to the RMVM-200 series rack mounted bracket. Provides horizontally adjustable 75mm mounting hole pattern attaching directly to monitor. The rear of the plate attaches to the RMVM-200 series mounting bar providing a stable rack mounting platform allowing for horizontal monitor position adjustment with a left monitor offset. Used when mounting multiple monitors.

#### VMP-075R

Mounting plate mounts 75mm VESA mounting hole pattern products to the RMVM-200 series rack mounted bracket. Provides horizontally adjustable 75mm mounting hole pattern attaching directly to monitor. The rear of the plate attaches to the RMVM-200 series mounting bar providing a stable rack mounting platform allowing for horizontal monitor position adjustment with a right monitor offset. Used when mounting multiple monitors.

#### VMP-100L

Mounting plate mounts 100mm VESA mounting hole pattern products to the RMVM-200 series rack mounted bracket. Provides horizontally adjustable 100mm mounting hole pattern attaching directly to monitor. The rear of the plate attaches to the RMVM-200 series mounting bar providing a stable rack mounting platform allowing for horizontal monitor position adjustment with a left monitor offset. Used when mounting multiple monitors.

#### VMP-100R

Mounting plate mounts 100mm VESA mounting hole pattern products to the RMVM-200 series rack mounted bracket. Provides horizontally adjustable 100mm mounting hole pattern attaching directly to monitor. The rear of the plate attaches to the RMVM-200 series mounting bar providing a stable rack mounting platform allowing for horizontal monitor position adjustment with a right monitor offset. Used when mounting multiple monitors.
