## RackMore Network Attached Storage System (RMNS)

The RackMore NAS System provides a flexible means of adding scalable network attached storage servers to networks via a 3U high rack mount enclosure providing mounting space for up to two separate QNAP™ NAS servers. A rear surge protected auxillary power strip adds functionality. Each NAS server contains two hot-swap hard drives supporting up to 2TB of storage configureable as RAID 0 (Disk Striping), RAID 1 (Disk Mirroring) or JBOD (Disk Volume) modes. QNAP™ NAS servers are available in SOHO/Home and Business (Pro) versions for maximum user flexibility.
